CHARTERED QUANTITY SURVEYORS & PROJECT MANAGERS

## Newsletter

### Managing Directors Comments

Welcome to our 2018 Newsletter.. 2017 has been a turbulent year personally, and challenging for the Team. Unfortunately I suffered a heart attack at work in the Summer. This subsequently resulted in me having to be in hospital over Christmas to have a triple heart by-pass and being off work for nearly four months. Due to this situation we have carried out a few changes within the Team. Mark Livesey has been promoted from an Associate to a Director and Kevin O'Leary-Steele has been promoted from Senior Surveyor to an Associate. The Directors decided to make these strategic business decisions to demonstrate our commitment to providing the best possible service to our Clients.

As well as the Team changes we have also decided that it was time to refresh and change our Company Profile to take us forward into the future. This has resulted in the changing of our Company Logo's, web site and our profile.

I hope you like our new and refreshed profile and we all look forward to working closely with yourselves in the coming year.

Stuart Livesey MRICS FQSI

### Recent Project Profiles

As in previous Newsletters we would like to highlight our specialist section, which is preparing Estimating Bills of Quantities for Main Building Contractors. We have been specialising in this field now for over 20 years. The following are a few examples:

## New Look & Re-Branding

As a company we had been discussing changing our logo, stationary and website and it was something we decided as a team to go ahead with. We felt we had a good brand and website as a whole but as with anything a change is refreshing and helps keep the company moving forward and in the right direction . We worked closely with a branding company and progressed 5 designs, down to 3 and then to the final edits. We had the designs all around the offices for everyone to see, in every room. We finally gave the go ahead on the following design, this prompted our new stationary.
